PANEL

PROTECT EXTERNAL SITES

The XTO control panel is a **weatherproof, wireless, battery operated**, hybrid alarm system. It is designed for outdoor commercial applications.

Examples of applications :

- Construction sites
- Vacant buildings / properties
- Vehicle compounds
- Fenced compounds
- Substations
- Cell Towers
- Guard Enhancement
- Remote Facilities, Mines, Gravel Pits
- Agriculture
- Solar panels
- Copper Theft
- Petro/Chem
- Church roofs

PANEL	
Operating temperature	-30° / +60°C (-20° / +140°F)
Hardware inputs	3
Hardware outputs	2
GPS Communication	<input checked="" type="checkbox"/>
Booster antennas GPS & Radio	Included
Number of devices	25
Power supply	Power supply 2 options : - Connected with 9VDC to 12 VDC, with 4 alkaline batteries back-up - 4 lithium batteries

OUTDOOR MOTIONVIEWER

No power required, 100% wirefree!

Since construction sites, vacant buildings, substations and all outdoor sites are usually uncontrolled environments, video verification is especially important to eliminate costly false alarms. VideoFeed's portability means it can be moved around as the project evolves – even if that means being installed months later at a brand new site!

OUTDOOR MOTIONVIEWER

Use	Outdoor
Video	Black & White
Operating temperature	-30° / +60°C (-20° / +140°F)
Installation	Mounting Arm Kit (Ref. MB100)
Battery life	4 years
Power supply	3 lithium batteries
