

The logo for Fisher Security is located in the bottom right corner. It features the word "fisher" in a white, lowercase, sans-serif font. Above the "i" in "fisher" is a small graphic of a 3x3 grid of squares, with the top-left square being white and the others being orange. Below "fisher" is the word "SECURITY" in a smaller, orange, uppercase, sans-serif font. A registered trademark symbol (®) is positioned to the upper right of the word "fisher".

INTRUDER ALARM SYSTEMS

Fisher Security is an NSI (National Security Inspectorate) Gold Approved Intruder Alarm installer.

Recognised as a leading provider within the industry we have in house expertise to provide a bespoke security package to meet your needs.

Our intruder alarms adhere to the latest regulations, and can be fitted as audible only or on a fully monitored basis.

INTRUDER ALARM MONITORING 24/7

All our alarm systems are capable of intruder alarm monitoring.

Monitored alarms are watched around the clock at our alarm receiving centre, so should your alarm activate whilst you are away from home your nominated keyholders will be contacted. Monitoring can be a single path solution over the telephone line, to Dualpath monitoring options such as Dualcom & Emizon

CCTV SYSTEMS

Keeping ahead of competition & always trialing the latest available technology.

Be it a single analogue pan tilt zoom camera, to a multi-site IP Cloud based system, our CCTV team have the expertise to provide a solution that exceeds expectations and provides complete piece of mind at all times.

COVERT CCTV SYSTEMS

Available on a monthly rental basis or as a standard outright sale, we have many success stories with our covert solutions and can provide results that leave our customers astounded.

REMOTE CCTV MONITORING & GATE AUTOMATION

Our in house CCTV control centre provides an unrivalled service for our customers.

Our highly trained SIA licensed CCTV operatives work attentively 24/7 365days a year to ensure your premises are secure at all times. Using live audio warnings and in house links to the local emergency services, you can rest assured we're looking out for you.

ACCESS CONTROL

We are able to provide Access control solutions to suit your needs.

Using gates, digital keypads, proximity readers, swipe cards and biometric solutions the system can be as simple or as complicated as you require.

Working in partnership with the leading Access control providers our solutions can assist with employee tracking, payroll & fire roll call to name but a few. All our installations work on open protocols to ensure ongoing viability and true value for money for our customers.

GATE & BARRIER SYSTEMS

If you're looking for automated gates/barriers, Fisher Security offers a complete bespoke design and installation service.

Our design team will visit your premises and guide you through the decision-making process, explaining the relative merits of each of the options available to you..

KEYPROTECT KEYHOLDING SERVICES

Fisher Security Ltd has SIA approved security officers available 24 hours a day to attend to your premises in response to any alarm activation which occurs outside of your normal working hours.

This saves the need for you or your staff to attend to an alarm activation during the night and eliminates the exposure to potentially dangerous situations.

FIRE ALARM SERVICES

Offering comprehensive fire solutions, we are able to provide the complete package; system design, installation, commissioning, monitoring and on going maintenance.

We have engineers specialising in this discipline to customise a fire system to suit your individual requirements.

We are also able to offer Fire Consultancy Services; providing fire risk assessments & fire training from fire safety awareness to practical fire extinguisher courses.

MAINTENANCE & 24 HOUR SERVICES

When choosing the optimal security system to protect your premises, it is crucial to also put in place an effective maintenance plan.

By taking out a maintenance contract with Fisher Security you can ensure your investment is protected and your system works effectively when needed.

Fisher Security has a dedicated team of service engineers who are able to maintain and service your security systems to ensure your insurance validity remains.

As a maintenance customer our 24hour advisors will ensure your out of hour needs are dealt with by a local service engineer giving you piece of mind day & night.

No matter what time you contact us, you will always get straight through to an experienced advisor who can deal with your request efficiently and effectively.

We offer 3 service level plans:

**BRONZE
LEVEL**

**SILVER
LEVEL**

**GOLD

DON'T JUST TAKE OUR WORD FOR IT..

"You know exactly where you stand with Fisher Security. They keep you abreast of all developments, never make promises they can't deliver on and are extremely knowledgeable.

We really can't fault them and wouldn't hesitate to use them for future projects."

David Fenner
Head of Security
Ebuyer

"Northern Marine Management changed from our previous security service provider to Fisher Security at the beginning of 2010, and Fisher Security now provide security services for all of our office and storage facilities in both Glasgow and Aberdeen. This includes security protection, alarm and monitoring functions, with full CCTV coverage and remote centralised 24 hours per day control room monitoring, along with immediate active audible (verbal, case specific) warning to any suspicious individual anywhere near our premises.

The technology applied is state-of-the-art and the service provided is exemplary in every way. The staff are very knowledgeable and customer focused, and during installation periods the work has been completed to a very high standard, right down to everywhere being left clean and tidy every day with no sign that any work had been carried out.

This, in our experience, is a level of service very rarely encountered these days. Most importantly, we now have an integrated security system that we are fully confident with."

Hugh Ferguson
Managing Director
Northern Marine Management Limited
